Min width of package	5 1/2"		
Production Capacity	Up to 1,000,000 pieces per week, depending on materials and job specifications.		

Please call in advance for scheduling information and poly film availability .

Postal information: All poly-bag shipments must be in compliance with United States Postal Service regulations. A postal approval statement must appear either on the material so it is visible from the outside, or on the poly film itself.

All first time shipments are subject to USPS approval process which requires submission of 10 completed "packages" to the USPS. This must be done in advance of the first job's start date. The initial approval process will take from 3 to 10 working days. Subsequent shipments are subject to inspection and approval of One completed sample by a USPS employee on our site. *Our poly wrap material is also previously approved for USPS palletization specifications.*

Features: Ink jet addressing, 6 line addressing with endorsement line and indicia if required, either inside or outside poly. In line addressing or messaging must be parallel to the long dimension of the piece.

Nesting for up to 5 pieces under cover of first piece.
Selective inserting for pieces when list is properly coded.

Material on hand: *Stock Material is pre-approved, either clear or white stripe, for sizes up to 9" x 12" x 3/8" packages which require USPS approved material. We stock enough for between 250,000 and 500,000 packages to help minimize approval delay's*

Special order material: *Lead time* For custom orders of clear wrap 2 to 3 weeks.
Custom orders of preprinted wrap are currently available about 5 weeks after receipt of art or copy.
Please call and verify lead times and USPS approval prior to placing an order.
